#### **WINTER AND COLUMBUS, GEORGIA - BUILDING UPON TRADITION**

Columbus (June 1, 2009) - Winter has successfully completed thousands of construction and environmental projects for clients in the hospitality, retail, government, education, corporate/office, religious, health care, industrial, historical restoration, and multi-family markets.

A new generation of Winter management – having taken ownership of our 30-year-old company last year – looks forward to growing with Columbus, including growing jobs at Winter in Columbus. We aim to do so by investing in relationships with our employees, our customers, and our communities. That sort of investment has paid dividends for three decades, as over 70% of our clients are repeat and over 60% of our employees have been with Winter for more than 5 years.

Winter shares a parallel path with the Columbus market: navigating a challenging time with strong leadership and a clear plan in place to grow. And we expect our breadth of experience to benefit the region as it grows. Winter has, for example, built 2.2 million square feet of schools over the past 5 years. And we have abated and remediated over 2500 properties which include asbestos abatement, hazardous waste remediation and brownfield redevelopment.

Winter is proud of its commitment to Columbus.

#### **About Winter Construction and Winter Environmental:**

Founded in October 1978, Winter is a privately owned and operated Atlanta based general contracting company providing construction and environmental services to clients in the hospitality, retail, government, education, corporate/office, religious, healthcare, historic restoration, and multifamily markets throughout the Southeastern and Mid-Atlantic states.

Winter Construction has consistently been ranked in the Engineering News Record (ENR) Top 400 Contractors in the United States for more than 25 years. Winter Environmental has been continually recognized by ENR as one of the top 200 environmental firms in the United States.
